Serial No.

The Dy Commissioners may on a declaration of the Standing resources of the District Council, the council may be exempted from the payment of Rs 422 a year for the upkeep of the State Roads within District limits and that the arrears due for the years 1928 29 & 1929-30 amounting to Rs 844 may be waived and the D C adds that the compulsion in this matter would eventually lead to the conversion of these arrears into Village Panchayat arrears and this step is a retrograde one which will not convince the District Councils to realise a sense of responsibility for improving their conditions. Sent for orders -

8/2/1929

Between the demands of the District road authorities & the District Board authorities who have preferred similar claims on account of both the roads the District Council may be landed with liabilities which are now proposed to be imposed with the duty of paying 30% towards previous arrears. If such Municipalities of Panchayats are exempted they completely fail their aims & may hereafter be

even thanks connected with Village Panchayats which is considered to be a retrograde step. Perhaps it would be better if the Act can specify the matters which are not to be provided for in the general objections that they are connected with V Bs. The rules made by the V Bs are not approved by Govt. and they do not print correct. Some of the V Bs have taken up this task as well

(Govt. orders) 28/3/25

"I think that a municipality if it wants justify itself must rise to its obligations. If it is unable to meet its obligations its conversion into a V P would not amount to a retrograde step. A big V P has its own advantages as it is comparatively more economically worked in view of the staff & employs and the compulsory or optional taxes it is entitled to secure. As a consequence it will have larger funds at its disposal for effecting local improvements.

Sir,

Adverting to Government Orders L 1986-2004/Rl 237-26-5 dated 3-9-1928 and L 666-74/Rl- 92-28-12 dated 24-7-1929 directing the Municipal Councils to contribute towards the maintenance of the State Fund roads lying within the Municipal limits, I have the honour to submit herewith the resolution of the Kumsi minor municipal Council received with the President's report No 173/28-29 dated 30-5-1929 and to state that Kumsi is a small Municipality with an income of Rs 2300/- as per budget for 1929-30. It has been fighting against odds to justify its existance The question of finding out means to improve its finances is unde correspondence and a final report will be separately submitted in the matter after hearing from the Comptroller who has been requested to furnish certain information

A communication has been received from the Executive Engineer Shimoga Division that the Kumsi Municipal Council has to pay Rs 844/- towards the maintenance charges of the state Fund roads for 1928-29 and 1929-30 As its present income is hardly sufficient to meet even the ordinary working expenses and contributions it has practically no funds to meet these charges Besides, the only road passing through Kumsi is the Bangalore-Honnayar road and this road is mainly used for through traffic

municipal traffic thereon being negligible

I further submit that the progress of the infant Municipalities struggling hard to discharge even essential services would be greatly hampered if they are saddled with such heavy charges To compel them to pay such charges might eventually lead to their extinction as municipal bodies For when once they become Village Panchayets they are absolved from all liability to make contributions towards Education Medical relief and Public works and their finances would thus be set free for local improvements But I should like to see such special areas continue as minor Municipalities as this status will make them realise a sense of responsibility for improving local conditions and finding funds therefor an ideal which even the Panchayets should gradually strive to achieve At the same time, it is necessary that we should not impose very heavy burdens on struggling local bodies, especially when the benefits arising out of such burdens are insignificant

In submitting these facts for the favourable consideration of Government, I request that the maintenance charges in question due from the Kumsi Municipality may kindly be waived as a special case

I have the honour to be

Your most obedient servant,
